

### Automobile Insurance Rate Board Filings 2nd Quarter 2017

(Filings with effective dates between April 1, 2017 and June 30, 2017)

The approved rate change reflects the total change in premiums collected by the insurer for all drivers that they insure. For basic coverage it includes third party liability and accident benefits coverage and for additional coverage it includes collision, all perils, comprehensive, specified perils coverage and underinsured motorist coverage.

The approved rate change does not reflect how an individual's insurance premium may change as a result of the insurer's rate filing, but reflects the average rate change for all policyholders who are insured with the insurer.

Driver premiums are calculated based on many different factors (e.g. number of years driving, claims, traffic convictions, territory in which you live, type of vehicle or coverage, etc.). Each of these factors may be adjusted up or down, as such; the change in premiums for individual drivers may vary as a result of an approved change to factors. For example, an insurer was approved for a 5% increase in basic coverage; an adjustment was made to territories; Calgary -2%, Edmonton +2%, Red Deer +6%, etc. For this rate change, drivers in Calgary would see their premium change by less than the 5% average and other territories would see their premium increase by greater than the 5% average.
